

Calculators

'How Much Can I Borrow' Calculator

- Determine how much you can borrow based on current salary and expenses, add your deposit, then find out what postcodes offer you affordable properties around Australia.

Loan Repayment Calculator

- Work out what your minimum weekly, fortnightly or monthly loan repayments would be for any borrowed amount.

Stamp Duty Calculator

- Work out how much stamp duty will be payable on the purchase of your new home.

Having Trouble Seeing our Calculators?

Most of our new home loan and savings calculators require Macromedia Flash and can only be viewed on machines that have the Flash plug-in installed. The Stamp Duty, Amortising and Income Tax calculators are based on JavaScript and will only work with Netscape 2.0 or above or Internet Explorer 3.0 or above. The Macromedia Flash plug-in is available for most popular browsers and can be downloaded from <http://www.macromedia.com/go/getflashplayer>.

On all calculators, make sure you enter numbers only, no commas, dollar signs or percent signs, eg. 100000 not \$100,000.
